

**Torrissi**

**Coraluzzo**  
PETROLEUM TRANSPORTERS

Coraluzzo Torrissi Transport, the premier fuel carrier on the east coast, has been in business for over 30 years. With a large asset pool and experienced personnel with many years of service, their excellent reputation in the energy marketplace has provided reliability and consistency for many of their customers.

SMS Rail Lines has provided custom rail service for Southern New Jersey and Eastern Pennsylvania since June 1994. Now serving three branch lines in the Delaware Valley Region, the SMS Rail Lines System serves all our customers with the highest quality service offered by any Class 1 or short line railroad in the region.

## The Mid-Atlantic Region's Bio-Fuel Single Source Solution

*...From the Industry Leaders for  
Safety, Flexibility & Unparalleled Service*

*The 'On-Demand' Rail Option: Economical, Safe and Dependable*

# The 'On-Demand' Rail Option : Economical , Safe and Dependable

**SMS Rail Lines and Torrissi Transport** established the "ECO TERMINAL" in 2006 to offer the industry a safe and reliable rail to truck transloading service. This joint venture terminal has created a service that guarantees safe rail and truck handling of your deliveries with on-time customer delivery.

The investments in infrastructure and technology along with the connections to both railroads – CSXT and NS – provide options to firms looking for strategic regional energy product distribution.

The **SMS Rail Lines / Coraluzzo Torrissi Transport team** is comprised of industry veterans with expertise in fuel transportation. We can quickly identify opportunities to optimize cost and delivery services to your customers.
